MILL CREEK SYSTEMS, INC. ANNOUNCES THAT RAS/EDIT IS ACQUIRED BY AXIOM

Arlington Heights, IL, March 2008 – RAS/Edit is now owned by Axiom, a well-known developer of software for MicroStation users. Since 1982, they have offered tools for the CAD manager and user, as well as training solutions. Their familiarity with the MicroStation community, along with their track record of excellent service make them an excellent choice to maintain RAS/Edit's position as the best choice for editing raster/hybrid files. RAS/Edit users will enjoy expanded support capabilities and the assurance that RAS/Edit still is part of a company that understands their needs and is committed to saving them time and money.

Axiom will take over support for all existing customers. We are working with them during the transition period to help answer support questions.

Mill Creek Systems continues to offer MicroStation and AutoCAD products such as Detail Manager PLUS and TimeTracker. Along with these, we provide custom software solutions to a variety of industries.

Axiom can be contacted at:

Axiom
