**RAS/EDIT™ VERSION 2.5.0 WITH MICROSTATION™ XM SUPPORT NOW AVAILABLE  
FROM MILL CREEK SYSTEMS, INC.**

Arlington Heights, IL, July 10, 2006 – Mill Creek Systems, Inc. announces the availability of RAS/Edit Version 2.5.0 with support for MicroStation XM. RAS/Edit is an easy-to-use tool that makes professionals faster and more effective. Now XM users can edit their raster files while working inside MicroStation! Copy and move, despeckle and deskew, stamp and save, and more are all supported.

“With RAS/Edit, we now have a cost effective solution that does exactly what we need on the MicroStation platform. I also appreciate the way your staff helped us resolve issues as they arose. I don't know of anyone that supports their software as well as your team does,” says customer Anthony P. Centore, S/D Engineers.

For more information on RAS/Edit or for a free 30-day evaluation, please contact Mill Creek Systems, Inc. toll free 1-866-MILLCREEK, via email at [info@millcreeksystems.com](mailto:info@millcreeksystems.com), or visit them on the web at [www.millcreeksystems.com](http://www.millcreeksystems.com).

Since 1992, Mill Creek Systems, Inc. has been dedicated to providing strategic results to its customers through CAD/GIS products as well as custom software solutions. In addition to RAS/Edit, the company offers Detail Manager PLUS™, a convenient and controlled way to use standard CAD details and TimeTracker™, a utility that tracks time spent in CAD drawings.
