MILL CREEK SYSTEMS, INC. ANNOUNCES THAT LOY YANG POWER, INC. AND SUBCONTRACTOR OPTIMUM DRAFTING PTY. LTD. CHOOSE RAS/EDIT RASTER/HYBRID EDITING SOFTWARE FOR DUAL MICROSTATION AND POWERDRAFT PLATFORM

(Arlington Heights, IL, October 12, 2003) Mill Creek Systems, Inc. announces that Loy Yang Power, Inc. and subcontractor Optimum Drafting, Ltd. have chosen RAS/Edit for MicroStation and Powerdraft as their raster hybrid editing software.

Loy Yang Power is Victoria's (Australia) biggest energy producer, providing enough electricity to supply one third of the state's electricity needs.

Loy Yang has a large database of engineering drawings and was looking for a lightweight simple tool to maintain their hybrids. In addition, their requirements were that the raster editing software work with both MicroStation and Powerdraft. "RAS/Edit was the only raster-editing solution available for both platforms," says Warren Newhauser, President, Mill Creek Systems, Inc., Arlington Heights, IL.

"The guys using it on a day to day basis think RAS/Edit is fantastic" says Ray Just, Optimum Drafting Pty./Loy Yang Power, Callignee, Australia. "This tool is so easy to use that even a person not familiar with it can learn to use it quickly. When I get to use it I am rapt."

For more information on RAS/Edit or for a free 30-day evaluation, please contact Mill Creek Systems, Inc. toll free 1-866-MILLCREEK, via email at info@millcreeksystems.com or visit them on the web at www.millcreeksystems.com.

Since 1992, Mill Creek Systems, Inc. has been dedicated to providing strategic results to its customers through CAD/GIS shrink-wrap as well as custom-solution software products. The company developed the popular RAS/Edit hybrid editing software and TimeTracker utility that tracks time spent in CAD drawings.
